

Science Consultancy Services

Science Consultancy Services

High-quality science provision requires more than strong subject knowledge — it depends on carefully planned curriculum design, effective teaching strategies and ongoing staff development.

At Conkerton Education, I work with schools to support and develop science departments through practical, evidence-informed consultancy tailored to your context.

About me

- Laura Conkerton
- Over 20 years' experience in secondary science education
- Former Director of Science
- AQA Examiner
- CPD provider for STEM Learning
- Contributor to the Royal Society of Chemistry

Services Offered

- Science CPD
- Science curriculum audit
- Curriculum design and development
- Full science improvement packages

My Approach

My work with schools is:

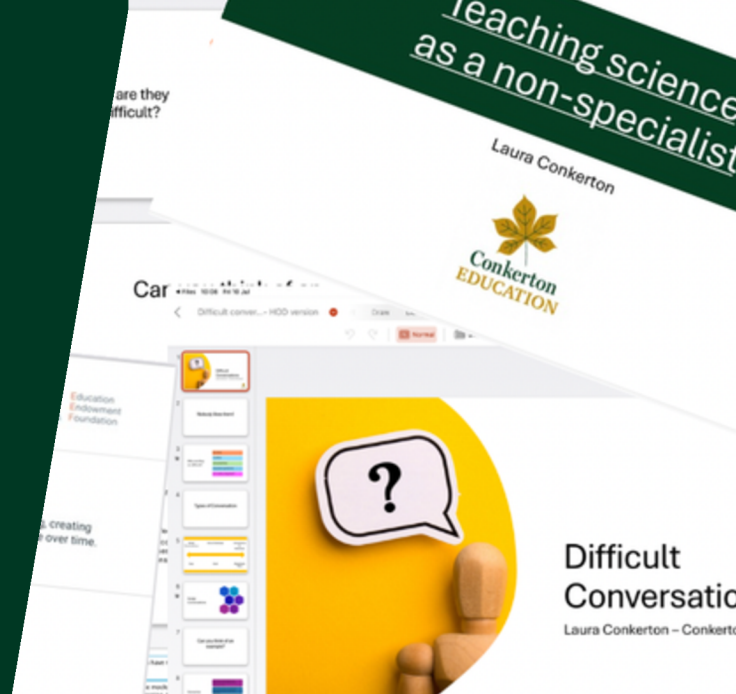

- Practical and actionable
- Grounded in classroom experience
- Informed by current assessment and exam requirements
- Tailored to your school's specific context and priorities

I aim to provide support that leads to sustainable improvements, not just one-off interventions.
